

 **Electrolux**

**The UltimateCare
series for your
laundry needs**

The right amount of care

A laundry that knows what matters.

At Electrolux, our philosophy are simple: Laundry should be seamless and intuitive. That's why our design team have developed it's new range with smart, sustainable features and clean lines for an effortless experience. So you can focus on the things that make you happy.

Washer Features

HygienicCare

With HygienicCare, the wash cycle finishes with soft vapour at 40°C that provides the basic hygienic care needs while staying gentle for your everyday wear and baby clothes.

Hijab & Batik

Specially designed program for hijab and batik, delivering superior cleaning and colour protection. Able to wash 40 hijabs / 12 batik pieces in one wash cycle. (Only available for UltimateCare 300 8kg & 9kg)

Full Wash 45

FullWash 45 cleans at 30°C in just 45 minutes. Fast and energy efficient while providing better care for your clothes at lower temperature.

Sanitise (Swissatest)

The Sanitise Program, verified by Swissatest, combines a wash cycle and steam at above 60°C to remove more than 99.99% of common bacteria and viruses¹.

EcoInverter Motor

Reduces vibration to deliver quiet, reliable performance with up to 50% lower energy consumption vs traditional models².

UltraMix

UltraMix technology thoroughly dissolves detergent, preventing visible residue on your clothes.³

¹Tested for Candida albicans, MS2 Bacteriophage and Escherichia coli in external test performed by Swissatest Testmaterialien AG in 2021 (*Test Report No. 202120117, 20232072).

²Inverter motor machine (EWF8024DWA) compared to Universal motor machine (EWF8025EQWA).

³Tested on a 3kg mixed load, using recommended powder detergent dosage. Results may vary depending on load size, detergent type and water hardness.

SensorWash

SensorWash technology uses unique sensors to automatically detect dirt and soil levels and then adjusts the cycle duration accordingly.

IntelliQuick

IntelliQuick smartly selects the quickest programme based on your laundry load for precise care and cleans a full load in 45 minutes.

VapourRefresh

Quickly revitalise your garments and smooth out creases in under 30 minutes with the VapourRefresh cycle. Your clothes will emerge refreshed, with less wrinkles compared to air drying.⁴

CareDrum

CareDrum lets garments glide smoothly due to its elevated cushion-like drum pattern and lifter paddle. Thanks to the unique pattern of the drum, it is gentle on your clothes (applicable to 13kg front load washers).

IntelliDose

IntelliDose machine uses sensors to deliver the optimal detergent dose for every load. With SensorWash, sensors detect any dirt left in your laundry during a cycle before adding a second dose of detergent if necessary.

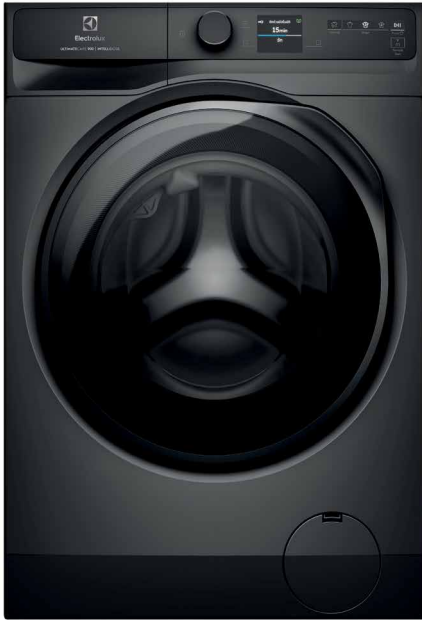

DuvetCare 60

Uses heated vapour. To treat and dry your king-sized duvets⁵ or comforters in just 60 minutes, while removing odours – like sweat, and reducing dust mites in one simple programme.

⁴Less wrinkles vs. air drying - tested and certified by THTI.

⁵King-sized duvets only suitable for in 12/13kg machines. Smaller sized duvets suitable in all machines.

Buying Guide Front Load Washer

IntelliDose

IntelliDose delivers precise detergent dosage.

IntelliQuick

IntelliQuick selects best load based programme.

SensorWash

SensorWash helps remove up to 53 stains.¹

VapourRefresh

Refresh clothes with vapour, without washing.

CareDrum

CareDrum gently cares and protects your laundry.

UltraMix

Prevents visible detergent residue with UltraMix.²

Full Wash 45

Efficient full-load washing in only 45 mins.

Sanitise (Swissatest)

Sanitise removes 99.99% common bacteria & viruses³

HygienicCare

Added hygiene and gentle care.

Hijab & Batik Care

Specially program for hijab and batik.

EcoInverter Motor

EcoInverter Motor – more efficient, saving energy.

¹Tested on 5kg load, stains from food, household and personal products using Cotton 40°C cycle + Stain option. Results may vary depending on factors such as models, load size, type and duration of soiling, detergent type and water hardness.

²Tested on a 3kg mixed load, using recommended powder detergent dosage. Results may vary depending on load size, detergent type and water hardness.

³Tested for Candida albicans, MS2 Bacteriophage and Escherichia coli in external test performed by Swissatest Testmaterialien AG in 2021 ("Test Report No. 202120117, 20232072").
